

Freiburg im Breisgau, November 3rd, 2020

Dear Sir or Madam,

as one of the leading manufacturers of specialized IT systems, Pyramid is represented in numerous fast-growing markets. This growth perspective is represented by the increasing demand for automation solutions and contactless interaction with technological innovations like ordering, paying or travelling in this globalized world.

Since we are focused on achieving our growth targets and continue with our internationalization, to stay on the current course is not enough: we have to accelerate it!

With the listed mic AG\*, Pyramid has a partner for quickly and easily financing investments via the stock exchange. Flexibility is an important factor, especially in the IT industry, in order to be more competitive and fully realize our great ambitions. Pyramid stays Pyramid, but with more power: contracts remain valid and previous contact persons stay the same.

The operational management will now completely be handed over to the new management under Josef Schneider, who himself is also a shareholder. The existing shareholders continue to hold significant shares of the company.

With this decision, we create clarity and perspectives for customers, partners and suppliers.
